

## Division (Mixed 9–12)

**Instructions:** Solve the division problems below.

1	18 bags of lollies are shared equally by 9 people. How many bags do they each get?	
2	11 people catch 44 fish altogether. If they each caught the same number of fish, how many did they each catch?	
3	A kangaroo jumps 36 metres in 12 seconds. How many metres does it jump per second?	
4	To make a giant chocolate cake, 9 kilograms of flour is needed. How many cakes can you make with 36 kilograms of flour?	
5	Kane goes to the beach the same number of times every month. If he went to the beach 60 times last year, how many times did he go per month?	

6	Sonya makes \$10 per hour from babysitting. How many hours does she have to work to make \$110?	
7	Jessica's pineapple tree grows a fruit every 9 months. How many pineapples can she grow in 81 months?	
8	72 apples are shared equally by a dozen people. How many do they each get?	
9	How many bananas will 9 monkeys each get if there are only 63 bananas to share?	
10	A sports t-shirt costs \$11. How many can you buy with \$121?	
11	Peter only has \$144 to spend. If a game costs \$12, how many can he buy?	

## Division (Mixed 9–12)

**Instructions:** Solve the division problems below.

1	9 pandas share 27 sticks of bamboo. How many does each panda get?	
2	How many \$12 jackets can you buy with \$24?	
3	48 people are on a boat. If each row of seats can only fit 12 people, how many rows of sets are needed?	
4	60 players are divided into equal groups of 10. How many are in each group?	
5	Ina gives 54 lollies equally to her 9 friends. How many lollies do they each get?	

6	Chris gets \$12 a week for pocket money. How many weeks will it take for him to get \$108?	
7	Lemon lollies come in packs of 9. How many packs does Joanna need to buy to get 72 lollies?	
8	110 biscuits are equally bought by 11 people. How many did they each buy?	
9	Lacey travels on a plane 12 times every year. How many years will it take her to travel 96 times?	
10	Tom spends 11 hours a week building a treehouse in his backyard. If it takes 132 hours to finish the treehouse, how many weeks will he need to spend on it?	
11	If Abby gets \$12 an hour working at a restaurant, how many hours does she have to work to buy an \$84 dress?
